Professional Science Essentials
WEEK 1 - Introduction to Library Resources Worksheet

1. Indicate whether the references below refer to a book or a journal article:

<table>
<thead>
<tr>
<th>Reference</th>
<th>Book</th>
<th>Journal article</th>
</tr>
</thead>
</table>

2. Which library tool would you use to search for a book or journal article in the ECU library collection?

___________________________________________________________

3. Which referencing style is used at ECU?

___________________________________________________________

- Go to your subject guide and click on the Professional Science Essentials tab.
- Click on the link to the ECU Referencing Library Guide.
- It is a good idea to bookmark this guide as you will need this throughout your studies at ECU.

4. On the Professional Science Essentials page of your subject guide there are links to recommended books and ebooks for the unit. What is the title of one of the recommended ebooks for PSE?

___________________________________________________________

What is the title of one of the recommended books for PSE?

___________________________________________________________

What is the call number of this book in the library? ______________

5. Click on the drop down menu on the Professional Science Essentials tab of your subject guide. Choose the Key Resources link and list one of the recommended websites on nanotechnology.
