Reference list

• Begin your reference list on a **new page**.

• Use the **centred bold** heading ‘**References**’.

• Each entry begins at the left hand margin. Use a **hanging indent**.

• Each entry is in **alphabetical order** according to the last name of the first author, followed by initials of the author’s given name. If there is no author, the title takes the author’s place in the list. Then alphabetise according to the first main word of the title (not ‘a’ or ‘the’).

• Works by the **same author** are arranged by **date** (earliest first).

• The reference list is **double-spaced**. Check with your lecturer to confirm this is required for your assignment.
