APA 7th Referencing

Librarian: Lisa Webb

Journal articles: DOI

A digital object identifier provides a permanent link to an article.

[Box: https://doi.org/10.1000/182]

- DOI:10.1515/ijnes-2019-0074
- https://doi.org/10.1515/ijnes-2019-0074
- http://dx.doi.org.ezproxy.ecu.edu.au/10.7748/ns.31.27.33.s40
- http://doi.org/10.7748/ns.31.27.33.s40

Just add https://doi.org/ to the front of the number. Make sure there is no ezproxy information in the URL.

If there is no DOI, just reference as though it is a print article.
Reference list

• Begin your reference list on a new page.

• Use the centred bold heading References.

• Each entry begins at the left hand margin. Use a hanging indent.

• Each entry is in alphabetical order according to the last name of the first author, followed by initials of the author’s given name. If there is no author, the title takes the author’s place in the list.

Then alphabetise according to the first main word of the title (not ‘a’ or ‘the’).

• Works by the same author are arranged by date (earliest first).

• The reference list is double-spaced. Check with your lecturer to confirm this is required for your assignment.
